This game is for 2 or more players. The goal is to win all the cards.

THE RULES:

- 1. Shuffle and deal out all the cards equally**
- 2. The cards contain 5 facts about the specific actor/actress:**
 - Age - The youngest actor/actress wins
 - Nominations – The actor/actress with the most Oscar nominations wins
 - Wins - The actor/actress with the most Oscars wins
 - Net worth - The actor/actress with the highest net worth wins
- 3. Each player holds their cards so that they can see their top card only**
- 4. The player to the dealer's left begins.**
- 5. The starting player picks one of the stats, reads it out loud and places the card face up in front of everyone. The fact should have a high value, with the player confident they'll win the round**
- 6. The remaining players read out the same item and place their card on top of the starting player's one. The player with the highest stat wins all cards**
- 7. The winner picks up the cards they won, places them at the bottom of their pack. Then it's their turn to call the next stat**
- 8. If two players have the same stat that is higher than the original callers one, all cards are left in the middle until someone wins and picks up all the cards**
- 9. The game ends when one player owns all the cards**
